Sea Viking 2004

Task Force UE

(2015+)

Concept Summary (2015+)

Phase I (Forward Presence) - TF South, as the main effort (ME), will conduct a demonstration, vicinity of Sibolga. All other CFMCC forces will conduct operations to support the force closure and sustainment of CFMCC forces.

Phase II (Joint Advance Force Operations) - The ESF, main effort (ME), will continue to conduct operations to establish local Air/Space and maritime superiority and defeat enemy forces within CFMCC Objective 3 (Palau Bintan). Within the JOA, the TUSWC, the supporting effort (SE), will neutralize enemy subsurface anti-access capabilities, setting conditions for initiating Phase III operations. Task organized UK and Australian forces, designated TF SOUTH, as a supporting effort (SE), will establish local maritime superiority and neutralize threats to shipping in AO South. TF South will defeat enemy forces within CFMCC Objective 1 (Siberut Island), CFMCC Objective 2 (Mukomuko), and CFMCC Objective 4 (Airbangus). 3d MEB, as a SE, will conduct operations in preparation for their Phase III (assault) against CTF Blue Objective B (Dumai). TF UE, as a SE, will conduct operations in preparation for their Phase III (assault) against CTF Blue Objective C (Rengat).

Phase III (Assault) - 3 MEB, as the ME, attacks in zone to defeat enemy forces vicinity of CTF BLUE Objective B (Dumai) IOT enable the introduction of follow-on forces by both surface and air means. TF UE, SE, defeats enemy forces in zone IOT enable the introduction of follow-on forces vicinity of CTF BLUE Objective C (Rengat). TF South, SE, conducts amphibious feint vic Padang. TF South, will fix 1st Mech Bde forces and guards avenues of approach from West to East to prevent their movement. The ESF, SE, will conduct operations to maintain local Air/Space and maritime superiority and provide support to 3d MEB, TF South, and TF UE. TUSWC, SE, will provide direct support to the assaulting forces in 3 MEB and TF South while maintaining force protection for the sea base. CTF 73, as a SE, will conduct operations to support the force closure and sustainment of CFMCC forces.

Phase IV (Enabling/Advance Force Ops) - 3 MEB, ME, attacks in zone and defeats enemy forces vicinity CTF Blue Objective D (Pekanbaru). TF South attacks and seizes the port and airfield vicinity CTF Blue Objective A (Padang). TF UE, SE, attacks in zone and defeats enemy forces vicinity CTF Blue Objective D (Pekanbaru) and closes follow-on forces through the ports/airfields vicinity Padang and Dumai. The ESF, SE, continues to conduct operations to maintain local air and maritime superiority. TUSWC, SE, continues to provide force protection for the sea base. CTF 73, as a SE, continues to conduct operations to support the force closure and sustainment of CFMCC forces.

Phase V (Transition) - Omitted for SV 04

Task Force UE
(2015+)

- **<u>Mission</u> – conduct forcible entry operation to seize airfield vicinity Rengat (CTF OBJ C) to facilitate introduction of follow-on forces; on order, attack in zone and defeat enemy forces vicinity Pekanbaru (CTF OBJ D).**
- **<u>Concept of Operation</u> – Airborne UA seizes airfield vic Rengat to establish a lodgment on OBJ C; once airfield is secure and expansion begins, self-deploy Air Assault UA AFSB to rapidly build combat power on the objective. Air Assault UA provides additional security for Airborne UA (ME) as lodgment continues to expand and follow-on airland forces arrive – priority of force flow is FCS UA, then Sustainment UA. Remaining UAs (RSTA, Stryker, Fires, Aviation) will flow in via C-130, C-17, TSV, or RORO to Rengat and ports of Dumai and Padang.**

Task Force UE Issues (2015+)

- **THAAD/Patriot assets available to CFACC – who, what, where, when?** **(Terry Johnson lead – organic to ME UA?)**
- **AASLT UA Equipment – bring from FTCKY or prepo on AFSB?** **(DPMO lead)**
- **Sustainment of forces beyond 3 DOS – tap into ARF – how, when?** **(DPMO lead)**
- **Task Organization to battalion level – task org heavy lift from Avn UA to AASLT UA?** **(LTC Kraak to send out 5 May)**
- **Joint fires assets available (AI/CAS/NGF)** **(Dan Wise lead)**
- **Role of CFLCC – needed? During which phase?** **(All)**
- **Force flow – supportable as is into Rengat, Dumai & Padang? ID additional entry points (HVTOL)** **(DPMO)**

Task Force UE
Force Flow (2015+)

Seq	Unit	Mode	POE	Date	POD	Date
1	Airborne UA	C-17/Parachute	Bragg via Australia	C+14	Rengat	C+20
2	Air Assault UA	AFSB/Self-deploy	Campbell via Guam	C+10	Rengat	C+20
3	FCS UA	HVOTL/C-130	Lewis via Australia	C+20	Rengat	C+22
4	Sustainment UA	C-17/C-130	Hawaii	C+22	Rengat	C+23
		(Units #1-4 needed to begin attack on Pekanbaru)				
5	RSTA UA	C-17/C-130	Hawaii	C+23	Rengat	C+24
6	Stryker BCT	TSV	Hawaii	C+14	Dumai	C+24
7	Fires UA	HVOTL/C-130	Hawaii	C+22	Padang	C+24
8	Aviation UA	RORO	Hawaii	C+4	Dumai	C+26
9	Mnvr Enhance UA	RORO	Hawaii	C+4	Padang	C+26
